Education

University of the Philippines Los Baños

Los Baños, Laguna

Bachelor of Science in Statistics (Computer Science Elective)

A.Y. 2026

Thesis: Exploring the Effects of Internet Dependency on Peer Relationship and Social Skills of Filipino Young Adults

Relevant Coursework: Advanced & Applied Statistics, Computing and Data Science

Professional Experience

UP Los Baños – Office of the Vice Chancellor of Research and Extension

Los Baños, Laguna

Office Assistant – Database Management

Feb 2026 – May 2026

- **Designed and proposed a standardized database architecture** to streamline the ingestion and retrieval of inter-institutional research project workflows across university departments.
- **Engineered automated ETL (Extract, Transform, Load) pipelines** using **Microsoft Power Query** to clean, restructure, and integrate fragmented legacy datasets.
- **Developed and deployed dynamic executive dashboards** across **Power BI** and **Looker Studio**, implementing continuous data-integrity audits to proactively identify and resolve reporting discrepancies.

Philippine Statistics Authority

Quezon City, Manila

Intern – Office of the National Statistician

May 2025 – June 2025

- **Conducted advanced statistical analysis and econometric modeling** on massive-scale national survey datasets using **R** and **Python (Pandas/NumPy)**, extracting key demographic and economic trends to support executive policy briefs.
- **Designed and published high-fidelity data visualizations** and comprehensive statistical reports, translating complex national metrics into intuitive insights for government stakeholders and the public.
- **Managed and reconciled critical financial and administrative databases**, implementing strict data-governance protocols to audit departmental records and ensure absolute reporting compliance.

Bank of the Philippine Islands (BPI)

Makati City, Manila

Intern – Data Modeling

September 2024 – November 2024

- **Developed predictive machine learning models** for highly imbalanced financial datasets using **XGBoost, CatBoost, and SMOTE**, successfully mitigating data skewness to optimize risk classification accuracy.
- **Engineered automated web-scraping pipelines** using **Python (Selenium / BeautifulSoup)** to harvest alternative web data, executing advanced feature engineering on existing banking variables to maximize model predictive power.
- **Synthesized complex quantitative outputs into actionable market intelligence**, delivering data-driven strategic recommendations to senior banking stakeholders to support portfolio optimization.

Leadership & Activities

UPLB Data Science Guild

Los Baños, Laguna

Marketing and Creatives

September 2024 – December 2024

- Spearheading the branding of the organization for the semester.
- Assisting of marketing the organization online using Meta Business Suite and LinkedIn.

UP Data Science Society

Diliman, Quezon City

Vice Director for Branding and Creatives

February 2024 – August 2024

- Spearheading the branding of the organization for the semester.
- Assisting the Branding and Creative Director in mandating creative tasks coming from other sectors of the organization.

Skills & Interests

Programming: R, Python, SQL and C

BI & Statistical Tools: SAS, STATA, Microsoft Power Bi and Google Data Studio

Language: Filipino and English

Interests: Artificial Intelligence/ Machine Learning, Data Management, Data Manipulation, Google Antigravity
